Orange County's Finest Alternative

Public Affairs Highlight Orange County Issues

KUCI's Public Affairs Programming

KUCI is Orange County's only remaining Public Affairs/News Oriented Radio Station. We are also one of the few remaining public access stations in the entire country. Our public affairs programming is intended to bring a greater awareness of student and community issues to the people of Orange County. Because of this, and because of our public accessibility, any community group is able to come to KUCI and present any issue on the air. KUCI is a unique forum for public interaction, and for the presentation of issues concerning our county and our growing awareness of ourselves as an individual community within Southern California.

Our programs cover a wide variety of topics: everything from health to technology, women's issues to new music, live entertainment to jobs. Nearly all of our talk show hosts are community professionals from many fields, and all of the talk shows are interesting, informative and sometimes even controversial. KUCI welcomes listener comments on our public affairs programming (or on any of our programming, for that matter), and we encourage you to write us at this address:

Alternative Programming: Something For Everyone

Many students are unaware that UC Irvine has a radio station. It is student owned and operated and is one of the few alternative media sources in Orange County. Located on the third floor of Gateway Commons, few students ever come to visit.

As an alternative media source, KUCI has much to offer Orange County. From public affairs shows where the latest issues that affect the community and students are aired, to the latest in musical trends. Alternative media allows for the exploration and experimentation needed to keep new ideas and art forms flowing.

KUCI's public affairs programs offer the listener a chance to hear community leaders address topics of interest in various fields of expertise. As a non-commercial medium, KUCI is open to any group that might like to put on a public affairs show. KUCI constantly presents helpful messages for non-profit organizations as well as announcements that inform and lead to a better lifestyle.

Most commercial radio stations don't present a mixture or variety of musical styles. As an alternative media source, KUCI presents music from all different genre. Every day from noon until three, the best and newest jazz music is played. The next three hours are reserved for experimental and progressive rock followed on most days by reggae and then the best in new music. And many people spend their mornings listening to soft rock and classical until noon. This type of programming is only possible from an alternative media source.

Below are descriptions for many of the music shows that KUCI presents. Search through and experiment with the disc jockeys. Call 833-5824 or 833-KUCI and talk about your favorite songs. Search and explore new alternatives to your listening and tell your friends about 88.9 fm KUCI. □

Saturday, 8:30 a.m.

STORY THEATRE

April McLean hosts an old-fashioned story-telling hour. Aimed at the kids, but adults also will enjoy a trip into their childhoods with old and new favorite children's stories. Who needs Saturday morning cartoons on TV when you've got KUCI's alternative!

Sunday, 8:30 p.m.

LONDON WAVELENGTH CONCERT SERIES

London Wavelength's Pete Larkin

brings the most interesting live concerts into your home, courtesy of the BBC and KUCI. Live recordings and interviews of new and upcoming artists such as Gary Numan, UB40, the Psychedelic Furs, and the English Beat.

Wednesday, 7:00 p.m.

REGGAE ALBUM OF THE WEEK

A special feature of the Night Train to Kingston show. Alex Engel plays an imported reggae album in its entirety and then gives it away to a listener. Sometimes new, sometimes not so new, but always reggae, the mysterious roots heartbeat of Jamaica. Jah Praise.

Friday, 9:00 p.m.

SIDE TRACKS

One side each of two newly-released new wave albums. Find out what's going on in the music field and why. A special feature of the Radio Vandalism Show.

JOHNNY QUEST

As a vinyl junkie, it is important to appreciate all forms of music. I am supposed to play classical but I like to explore the best in avante-garde and my favorite Dvorak. I play requests.

MIKE DUFFY

Sanity. Rationality. Tranquility. All is right with the cosmos as Mike Duffy restores reason to your world with classical music that has a firm base in reality. Catch the simplicity of it all Tuesdays from 9 to noon.

HIGHER FORMS

It is said that music is the highest form of the human imagination. Share the great works of art that have survived the test of time with your host Andrew Wolanow every Sunday from 9 to 11:30. Relive the days of old through the music that made them great.

CHICAGO SYMPHONY ORCHESTRA

Experience this season's performance of the Chicago Symphony Orchestra and the conducting genius of Sir Georg Solti with your hostess Beverly every Thursday morning from 9 to noon.

APRIL LOVE

Baroque music. Classical dance. Extraordinary fugue. All this and more are yours when you listen to April Love's Classical Music on Saturday from 9 to noon.

GAIL PINK

Dance and party to the latest music. I love taking your requests and hearing from you. Theme shows are my favorite.

WALLY WAVE

Cowabunga! The Kahuna and Moondoggie Memorial Surf Hour! A tribute to one of Orange County's indigenous art forms, followed by some of the most danceable tunes this side of the Wedge. Fridays from 6 to 8:30 p.m.

JOHNT.

This guy's an animal. Plays the most influential stuff around. From the Rolling Stones to the Go-Go's. The Shirelles to the Modettes. The Supremes to Kate Bush. Don't get too close, he's far too hot. Three to 5:30 every Monday afternoon.

THE "E" MAN

When the oceans are too crowded, the "E" Man shall inherit the earth. Sex-wax in every pot and a stick in every garage. Plus the Who album showcase. Hear him unleashed every week on Wednesday from 9 to midnight.

TOSS THE FEATHERS (FOLK SHOW)

What do the Congo, San Pueblo and the Celtic Isles have in common? First, music plays a vital role in the cultures of these regions. Second, you can hear original music from these and other far-off lands when you tune in to Toss The Feathers on Tuesday from 6 to 8:30 p.m.

WARREN

If you like power chords, thumping bass, blistering leads, and thunderous drums, this show is for you. Join Warren for the best in hard rock, blues, southern boogie, and (of course) heavy metal Tuesdays from 9 to midnight.

JOE CURRAN

This rockabilly music is so intense, he uses his bandana to constantly wipe the sweat from his brow as his feet keep moving to the music. Slice on in to bite some American music.

MEG JONES

This scintillating seductress plays some of the best Australian "down under" music and pop/rock/dance music. The only regret is that the show is three hours and not longer.

JOHN GLOVER

Transcend your complacent listening attitudes and soar to new worlds as I hope to play tomorrow's music today. This is the music of another world, a future time.

TONY OZUNA

My mom made me grow out my hair to an inch, now my friends think that I am a traitor to my class. No one spits on me anymore, even though I play all of the local punk bands on my show. I just want some respect. No one kicks me anymore.

NUCLEAR OVERTURES

Jazz fusion? Jazz fission! Jazz at critical mass! Let Andrea whip you into a frenzy with jazz in the early morning. Catch the chain reaction on Tuesday from 6 to 8:30. What a blast!

LESLEE

If you like cream sherry and satin sheets, you'll melt when you hear Leslee. Catch her frictionless jazz and her silken honey voice every Monday from noon till 3.

SCOTT CAPURO

Suppose you were on a planet that had no jazz or Broadway music? What would you do? You'd have Scotty beam you up. If you find the need for this kind of music impinging on your life, tune him in Tuesdays from noon to 3 p.m.

J.B.

Josh Bleier, nobody's sweetheart, with the best of jazz. You can hear his uncompromising jazz style, from Akiyoshi to McCoy Tyner, every Sunday from 12:30 to 3 p.m.

RADIO HALL OF FAME

Do you remember "Fibber Magee and Mollie," dearie? Or "The Lone Ranger," "Richard Diamond," "The Great Guiderleeve" and the hundreds of other old radio favorites? Get a taste of old-time radio with the Radio Hall of Fame Sundays from 3 to 6.

DAVE KOBRIN

Big Bands! Big Bands! You want more? Broadway! Show Tunes! Even more? Interviews with the greats, like Louie Bellson and Mel Torme. More still? What are you, a vacuum cleaner? Saturday from noon to 3.

MR. GONE

I was doing late-night experimental radio. Then I tried one matchhead of concentrated extract of pineal gland of Iguana. Three weeks later, when I came down, my attorney recommended a change of pace. One more matchhead . . . I was jazzed!

MAX MOROCCO

Musical styles including dub, calypso, reggae and ska: a meeting place for musical styles combining the best of old with the best of new.

THE NIGHT TRAIN TO KINGSTON

Watch the lights of Jamaica go by. Ride with Alex Engel on the Night Train to Kingston. For a remarkable evening of reggae music, join him Wednesdays from 6 to 8:30 in the evening.
